## Professional Summary

Results-driven Front-End Developer with over 4 years of experience in designing and implementing web applications using ReactJS, JavaScript, TypeScript, and NextJS. Proven track record in enhancing user experiences and driving revenue growth. Skilled in leading development teams, optimizing code quality, and delivering scalable solutions. Strong problem-solving abilities and effective technical communication in fast-paced environments.

## Professional Experience

**Software Engineer - FrontEnd** Aug 2024 - Present

*Quantian Technologies*

Diagnosed web application challenges and effectively communicated to identify root causes, achieving **92% resolution rate**.

Reviewed and analyzed continuous integration strategies for efficient large-scale software deployments. Headed the onshore development team, improving **code quality by 60%** while ensuring accurate requirement implementation.

**Software Engineer - FrontEnd** April 2023 - June 2024

*Datart Infotech*

Conceptualized User Experience and led web development efforts, resulting in a **20% increase in revenue** within 6 months.

Reviewed and analyzed continuous integration strategies for efficient large-scale software deployments. Proficiently troubleshoot enterprise issues with a customer focus, achieving a **75% customer satisfaction rate**.

**Software Developer** April 2022 - March 2023

*Sterling Systems Pvt. Ltd*

Contributed to the development of web applications and testing responsive design across 16 devices, gaining hands-on experience in **ReactJS, JavaScript and Bootstrap**.

Computed project specifications and contributed to debugging technology systems, surpassing performance expectations.

**Junior Web Developer** July 2021 - February 2022

*AMS WAVE Pvt. Ltd.*

Actively engaged in continuous learning opportunities to expand knowledge of front-end technologies, including HTML5, CSS3, JavaScript and some basics of React JS.

Engaged in comprehensive training sessions and workshops to deepen understanding of core Java concepts by the experts.

Actively participated in coding exercises to apply theoretical knowledge to real-world scenarios, honing problem-solving skills and programming proficiency.

# Key Projects

## Client Project - Fintech Company

- Engineered a dynamic Business Loan EMI Calculator using ReactJS, allowing users to estimate loan repayments.
- Ensured responsive design principles for seamless usability across various devices.
- Conducted rigorous testing and refinement, resulting in a **20% increase in user engagement** within the first three months of launch.
- Achieved a **95% accuracy rate** in loan repayment estimations, surpassing industry standards

## Client Project - Property Company

- Created a user-friendly web application to streamline property search and showcase services using **ReactJS** for frontend development.
- Implemented responsive design, ensuring optimal viewing experience across various devices, resulting in a **30% increase** in mobile traffic..
- Collaborated with a multidisciplinary team including designers and developers to ensure timely delivery and adherence to project milestones, achieving a **90%** on-time delivery rate.

# Skills

- **Front-End Technologies:** ReactJS, JavaScript, TypeScript, NextJS, HTML, CSS, Bootstrap, Tailwind CSS
- **Back-End Technologies:** ExpressJS, NodeJS, MongoDB, Restful API, Python, Django, SQL
- **Other Tools:** ThreeJS, Git, GitHub
- **Development Practices:** Progressive Web Applications, Responsive Design, Continuous Integration
- **Soft Skills:** Problem Solving, Analytics, Team Collaboration, Clear Technical Communication

# Education

Bachelor of Technology  
Electronics and Telecommunication Engineering  
Sanjay Bhokare Group of Institutes, Miraj

June 2021

# Achievements

- Worked on more than 20+ realtime industry projects.
- Completed Jr. Software Developer (400 Hrs.) Course by Government of India.
