Professional Summary

Bringing over 3 years of expertise in web UI development with in-depth knowledge of ReactJS, JavaScript and progressive web applications. Consistently recognized as a hands-on and competent leader, skilled at fast-paced, deadline-driven project completion.

Professional Experience

Lead Web Developer   April 2023 - Present
Datart Solutions

Conceptualized User Experience and led web development efforts, resulting in a **20% increase in revenue** within 6 months.

Reviewed and analyzed continuous integration strategies for efficient large-scale software deployments.

Proficiently troubleshot enterprise issues with a customer focus, achieving a **95% customer satisfaction rate**.

Headed the onshore development team, improving **code quality by 90%** while ensuring accurate requirement implementation.

Web Developer   April 2022 - March 2023
Sterling Systems Pvt. Ltd

Contributed to the development of web applications and testing responsive design across 16 devices, gaining hands-on experience in **ReactJS**, **JavaScript** and **Bootstrap**.

Computed project specifications and contributed to debugging technology systems, surpassing performance expectations.

Diagnosed web application challenges and effectively communicated to identify root causes, achieving **92% resolution rate**.

Junior Web Developer   July 2021 - February 2022
AMS WAVE Pvt. Ltd.

Actively engaged in continuous learning opportunities to expand knowledge of front-end technologies, including HTML5, CSS3 and JavaScript.

Engaged in comprehensive training sessions and workshops to deepen understanding of core Java concepts by the experts.

Actively participated in coding exercises to apply theoretical knowledge to real-world scenarios, honing problem-solving skills and programming proficiency.

Key Projects

Client Project - Fintech Company

- Engineered a dynamic Business Loan EMI Calculator using ReactJS, allowing users to estimate loan repayments.
- Ensured responsive design principles for seamless usability across various devices.
- Conducted rigorous testing and refinement, resulting in a **20% increase in user engagement** within the first three months of launch.
- Achieved a **95% accuracy rate** in loan repayment estimations, surpassing industry standards

Client Project - Property Company
- Created a user-friendly web application to streamline property search and showcase services using **ReactJS** for frontend development.
- Implemented responsive design, ensuring optimal viewing experience across various devices, resulting in a **30%** increase in mobile traffic..
- Collaborated with a multidisciplinary team including designers and developers to ensure timely delivery and adherence to project milestones, achieving a **90%** on-time delivery rate.

Client Project - Studio Company
- Instituted a web application using ReactJS and ThreeJS, to allow users to design custom 3D patterns and designs for printing.
- Utilized **Three.js** library to render 3D models in real-time, achieving an **average rendering time of under 1 second**, optimizing performance for seamless design exploration
- Implemented advanced customization options allowing users to manipulate colors, textures, and dimensions, resulting in a **15% increase** in design diversity.

Client Project - Interior Design Company
- Developed a responsive portfolio website for an interior design company using **ReactJS**.
- Integrated interactive features such as image galleries, sliders, and animations to highlight the company's design projects effectively, resulting in a **20% increase in average session duration**.
- Utilized React Router for seamless navigation between different sections of the website, improving user accessibility and **reducing bounce rates by 15%**.

Skills

- ReactJS, JavaScript, TypeScript, ThreeJS, HTML, CSS
- ExpressJS, NodeJS, MongoDB
- Progressive Web Applications, Responsive Design, Bootstrap
- Problem Solving, Analytics, Data Structures & Algorithms, Team Collaboration
- Clear Technical Communication, API, Git, GitHub

Education

Bachelor of Technology   2017 - 2021
Electronics and Telecommunication Engineering
Sanjay Bhokare Group of Institutes, Miraj
Diploma   2012 - 2017
Electronics and Telecommunication Engineering
PVPIT, Budhgaon
SSC   2011 - 2012
Electronics and Telecommunication Engineering
New English School Miraj

Achievements

- Worked on more than 20 realtime industry projects.
- Completed Jr. Software Developer (400 Hrs.) Course by Government of India.
